5. [] LIAISON Called Jennifer Ward, House International Relations Subcommittee on Africa staff, in connection with her earlier request and advised her that we were still working on the 1977 figures to update the Agency publication on communist aid to less developed countries. I told her we expected this year's report to be available in September. She indicated the Subcommittee would appreciate receiving a copy when it comes out.

6. [] LIAISON Received a call from Mark Smith, on the staff of Representative Clarence D. Long (D., Md.), who is interested in any information the Agency might have on the Brazilian nuclear program. He explained that the Congressman, as Chairman of the Subcommittee on Foreign Operations, House Appropriations Committee, is planning to hold hearings on Third World nuclear powers sometime in the future. I suggested that when the Subcommittee gets a sharper focus on what their interests are, we would be happy to work with them on any briefings they might need. In the meantime, we plan to provide Smith with unclassified information such as the Latin American FBIS daily report and a collection of descriptive articles provided by [] OSI/NFAC. Smith was very pleased with our response.

7. [] LIAISON Received a call from Charles Wolf from the Chicago office of Senator Adlai E. Stevenson (D., Ill.). His concern was to get assistance in expediting various Government agency checks on a visa case. After checking with [] DCI Security Staff, I advised Wolf that we had alerted our people to respond quickly to any inquiry from the visa office, but that they were the people who really had action in this matter. Wolf appreciated our response and indicated that he had just received a similar response from the FBI. The name of the individual in whose behalf he called was [] who is seeking permission to leave Cuba.

8. [] LIAISON Doug Gregory, from the St. Petersburg office of Representative C. W. Bill Young (R., Fla.), called to tell us about a constituent, [] who claims to have a friend who used to be with DIA, now living in Germany, and passing on U. S. Government secrets to the Germans. Mr. Gregory assured me that [] is a reasonably reliable individual and that he was obliged to take her seriously. I have passed this information on to []
